## INTER-UNIVERSITY TRANSIT SYSTEM (IUTS)

The Inter University Transit System (IUTS) is operated under the authority of the Council of Ontario Universities to provide a secure and reliable daily exchange of library books, mail and teaching materials between all Ontario Universities. Personal mail and hazardous materials may not be transported via IUTS

The University of Waterloo is on Route 2 which begins daily at York University and makes stops at the University of Guelph, OUAC and Wilfrid Laurier University before arriving at the University of Waterloo around 9:30 am. From Waterloo material is delivered to McMaster University and Brock University before returning to York University for distribution the following business day.

Central Stores delivers IUTS mail picked up from campus locations during the day to the Dana Porter Library the following morning. IUTS mail typically leaves the library between 9:00 and 9:30 A.M. each business day.

### **Expected delivery time after departure from UW:**

Same business day ..... McMaster, Brock, UofG and WLU via  
Tri University Group of Libraries delivery  
Next business day ..... All others except Ottawa, Quebec and  
Northern Ontario Locations  
Two business days ..... Ottawa, Quebec locations  
Weekly ..... Northern Ontario locations - No boxed parcels to these locations.

## TELEX OR TELEGRAMS

Prior to sending a telex or telegram you must choose a payment option:

- Large users of these services should call 1-800-361-1872 and set up an account with Unitel.
- Small users of these services may either be billed direct or charge to a Visa or Mastercard.

Once you have decided on your payment option, you may then fax your telex or telegram message to 1-800-363-7087 and Unitel will send it out for you.

## ELECTRONIC MAIL

Most computers that are connected to the campus computer network have software for sending and receiving electronic mail (often called "Email", or simply "mail"). The campus computer network is part of the worldwide "Internet" of national, provincial, and institutional computer networks. You can create and send Email to a recipient at another network-connected computer, on campus or elsewhere, provided that you know the recipient's Email address. Whatever computing system you use here at UW, your Email address is some variation on the general form "*userid@systemname.UWaterloo.ca*". If you need information on how to use the Email software on your computer and you don't know who to contact, please call the CHIP or any of the Faculty Consulting Offices listed under Information Systems and Technology.

## COMPUTER DIRECTORY

UWdir is an electronic directory that contains a subset of the information that UW maintains about its students, faculty, and staff. Each UWdir entry contains a name field, a uwuserid field, and may also contain an email field. Entries for faculty and staff also contain department, building, office, and telephone extension fields. Entries for students contain the student's faculty and program of study, encoded in the department field. UWdir is updated every few days to incorporate any changes made to university records by Human Resources, Payroll, Telephone Services, or the Office of the Registrar or Graduate Studies. If your email address is recorded in UWdir, then Email addressed to you in the form "*uwuserid@uwaterloo.ca*" will be delivered to the address specified by your Email field. If your email address is not in UWdir or is not correct, please see <http://www.uwaterloo.ca/uwdir/> for further information.

Instructions on using UWdir and information about the UWdir database are provided in UWinfo "<http://www.uwaterloo.ca/>" under the "UWdir" main-menu item.

## WEB DIRECTORY

This version of the telephone directory contains information current as of November 1, 2000. For up to date information since the printing of this document, please visit our web site at <http://www.ist.uwaterloo.ca/phone/>. Updates to this webpage are made daily.

# MERIDIAN MAIL

Meridian Mail provides each user with a private “voice” mailbox. This mailbox can be accessed via a simple set of commands issued by pressing designated keys on the telephone keypad. Voice prompts offer guidance at every step. The on-line Help Service, accessed by pressing \*(asterisk), supplements the prompts if required and speeds the learning process.

### **11. TAGGING MESSAGES**

When you create messages you can tag them using the Message Options command, to indicate that you want a message handled in a special way.

**Acknowledge** – when you tag a message for Acknowledgment, you receive a notification when each recipient hears your message.

**Private** – if a message is confidential, you can tag it as Private. The recipient of the message tagged private can't forward it.

**Timed Delivery** – when you tag a message with Timed Delivery, the message is sent at the date and time you specify.

**Urgent** – an Urgent message is announced when the recipient logs in.

Before you send your message:

Press 70 – Message Options

- 1 – urgent
- 4 – private
- 5 – acknowledge
- 6 – time delivery
- 79 – to send message

Example of time delivery, you want message delivered on July third at four in the afternoon:

Enter the month	7#
Enter the day	3#
Enter the hour and minute	4#
Enter the meridian number	_#

**Note:** *The meridian number is 1 if AM and 2 if PM*

## 12. BYPASS GREETINGS

**Note:** *If you are calling another mailbox user on your system and wish to bypass their greeting, depress '5' and you will go directly into their mailbox.*

## 13. ALTERNATIVE LOG ON

After you have called a Meridian Mail user and have left a message, you can log on to Meridian Mail without hanging up and dialing the Meridian Mail access number.

To log on to your mailbox after leaving a message:

1. Finish recording the message by entering #
2. Press 81

You can now log on to your mailbox as usual:

- number followed by #
- enter your password followed by #

## 14. THRU-DIAL

When you are logged on to your mailbox, you may make an internal call without disconnecting from Meridian Mail.

1. Press 0 followed by the extension number

*Do not pause for more than two seconds after pressing zero, or you will be connected to the attendant.*

## 15. CALL SENDER

After listening to a message, you may want to speak immediately with the person who left the message. That extension number can be automatically dialed for you by using the Call Sender feature. It is not applicable to outside callers.

1. After hearing the message, press 9.
2. Talk to the sender or leave a message.

## 16. EXPRESS MESSAGING

May be used by mailbox and non-mailbox users. This feature lets you send a message without having to log on to your mailbox.

1. Dial the Express Message access number 4967 from within the system or 888-4967 from outside the system.
2. Enter the mailbox extension number of the person for whom you want to leave a message, followed by #.
3. Leave your message after the tone.

### **Transferring a Caller to Express Messaging**

If you answer a call meant for another person, and that individual is not available, you can transfer the caller to Express Messaging to leave a message in the other person's mailbox.

1. Activate Transfer on your telephone
2. Call the Express Messaging access number extension, 4967.
3. Enter the mailbox extension number of the person for whom the caller wants to leave a message, followed by #. *(This step is necessary if the caller does not have a touchtone phone.)*
4. Complete the call transfer as quickly as possible so that the caller can hear the prompt to record a message.

## 17. SAMPLE PERSONAL GREETINGS

By customizing your personal greeting, callers will hear a familiar voice upon entering your mailbox. They will not only feel more comfortable but will be encouraged to leave you a message which will facilitate your prompt response back to them.

You can change your personal greeting as often as you like through the "Mailbox Greeting" portion of your mailbox.

Remember, our primary objective is to serve our callers and that includes answering all

calls. Your mailbox is not to be used to “screen” calls. Its purpose is secondary to answering the calls in person.

The procedures listed below should be followed in order to give appropriate response to those calling.

1. Your mailbox must be checked frequently for messages that may come in while you are away from your desk and all calls should be returned as soon as possible.
2. The following greeting is recommended for each user with a private “voice” mailbox:

**If you are in the building, but away from your desk:**

Hello, this is (your name) for Wednesday, July 7th. I am in the office today, so if you would like to leave me a detailed message, I will get back to you shortly. If you need to speak to someone else, please press “0” and our support staff will assist you.

**If you are out of the office:**

Hello, this is (your name) for Thursday, July 8th. I am out of the office until 1 pm but will be checking my messages regularly. Please leave me a detailed message, and I will get back to you as soon as I can. If you need to speak with someone else, please press “0” and our support staff will assist you.

By using the date, this tells the caller that you check your messages regularly. If the caller has left a detailed message, you can return the call with the information that has been requested. Be sure to tell the caller in your message the time or date you are expected back. This enables the caller to determine whether or not to press “0” or wait until your return.

Your greeting for your mailbox should be changed a minimum of once a day or more frequently if status of return time or location changes.

**DO NOT HIDE BEHIND VOICE MAILBOX WHEN YOU ARE IN THE OFFICE.**

If you are at your desk you should answer your calls.
